EMERGENCY

EXIT

de piel y de hilo

SINOPSIS

Emergency exit, choreographed for skin and thread performers, is an anthology of small female confidences, ironic, absurd, perhaps autobiographical.

Emergency exit is a parade of women with long hair, high heels and dressed in red, within an atmosphere that reveals their weaknesses and their phobias. The title itself cites inscription "emergency exit" to question roles, identities, memory dancing body and desires. What is the emergency exit? Where do we take?

This is almost a story where a grown-up Alice can jump the whole, sometime...

Dance, video and puppet to tell, in a visual way, the different roles of women in contemporary times, where the relationship with an imaginary other woman will be the beginning of a journey in the memory of the body that dances and questions itself.

They said about the piece

JESSICA M. PUGA EN EL COMERCIO-GIJÓN

In order to "lose and meet the public" throughout this trip halfway between fantasy and reality, she did not skimp on the staging. There were dolls and puppets made by herself.

A. RUIZ - LANZA DIGITAL CIUDAD REAL

The struggle between comfort and discomfort, desire and non-desire, the urgent and the important emerges in the dance-theater piece 'Emergency exit' [...] The show is a mixture between contemporary dance and physical theater, in whose crossing is the research carried out by the Italian artist resident for ten years in Spain, whose dance has evolved and responds to a style 'contaminated' both by different disciplines and by the culture of her native country and her experience in Madrid, where He has lived, and Catalonia, where he currently resides ..

MIGUEL QUIROGA - DIRECTOR OF THE SCENIC SPACE "EL HUERTO" - GIJÓN

[... Her work has also made it clear to us that she is an artist who is in search of her own scenic language, based on contemporary scenic dramaturgies, which is why we consider support for her scenic projects highly recommended and necessary.

MIGUEL MUÑOZ - DIRECTOR OF TEATRO DE LA SENSACION - CIUDAD REAL

It has happened again! Antonella D'Ascenzi with her "EMERGENCY EXIT # of skin and thread" has turned the Theater into the Ritual necessary to converge symbiosis, emotions, sensations and vibration of the senses. We rediscover ourselves in this type of artistic manifestations, as human beings close to the objective of Culture. Share knowledge with citizens for our own emotional growth. Thanks to Antonella and her fantastic team.

COLABORADORES

The choreography has been supervised by Sara Simeoni (by Carolyn Carlson, see next) with which we share the idea of a dance made of matter and intuition.

In its visual creation, several visual artists have contributed in the framework of Pepinièrers des Jeunes Artistes within the Program "Park in Progress" (among all Klaus Fruchtnis with which we study the possibilities of micro-mapping).

It currently has a stable team formed by the video-creator Candela Muschetto and the light designer Elena Piscitilli.
